July 2017

# THE WICK

## NOTE FROM THE PRESIDENT

I am having a wonderful summer, how about you? With the exception of all the rain I think most of the days have very comfortable. My outside garden is reaping the benefit of all the precipitation. Indoors, my plants are reaping the benefit of my light stand that I got from Jerry for Mother's Day. Even the two new plants I planted in my terrarium are looking good!

I hope many of you can come to the Monday, July 17<sup>th</sup> meeting at 6 pm. When we arrive at 6 pm, we will order pizza, then get right down to business and do some brainstorming. **Note: If you are coming and might be a little late, let me know so we can save you some pizza.**

It will be our yearly planning meeting and we always welcome new thoughts. We need to talk about the yearly meetings and a couple of other things. Those of you at the picnic last month wrote down some very thoughtful ideas and I am excited about sharing them with our planning committee.

I will bring some pop, plates, napkins and chips. You bring some paper, pencil and new ideas to throw around. We should be good to go.

See you on Monday!

Jo Cornett
